REASONS FOR ALLOWANCE

2. Claims 1-10 and 13 are allowed.

- The following is an examiner's statement of reasons for allowance:

An adjustable motorcycle headlight assembly comprising: a headlight housing having a lens on a forward side thereof, and an integral boss incorporating a socket; a mating ball provided at one end of a ball shaft, the other end of said ball shaft adapted to be rigidly affixed to a motorcycle frame, wherein said ball and said socket are matingly engaged to provide a ball and socket joint structure enabling rotational and translational movement of said ball and said socket relative to one another; and a positioning arm having one end attached to said

headlight housing via a retaining boss integrally provided on said housing, and an opposite end adapted to be rotatably attached to the motorcycle frame, said positioning arm being adjustable lengthwise and movable both rotationally and translationally relative to said retaining boss.

- A motorcycle headlight comprising: a headlight housing; and a three point mounting assembly integrated to a rear side of said headlight housing, including a ball provided at a free end of said mounting shaft, said ball matingly received in a mating socket formed in a portion of said headlight, wherein said adjustment mechanism enables movable adjustment of said headlight relative to said mounting shaft; and a pair of extendable and rotatable positioning arms each attached to said headlight at one end and adapted to be rotatably attached to the frame at another end.
- An adjustable motorcycle headlight assembly comprising: a headlight housing; a ball and socket structure movably connected to said headlight housing and adapted to be rigidly attached to a frame for providing adjustability of said headlight housing; and a pair of positioning arms connected to said headlight housing and adapted to be attached to the frame, each said positioning arm including an adjustment mechanism enabling length and rotational adjustment thereof.
- An adjustable central motorcycle headlight assembly comprising: a central headlight housing including a lens; a mounting assembly for mounting said central headlight housing to a motorcycle frame; and adjustment means for

adjusting said central headlight housing with respect to a motorcycle frame after assembly thereto, and including means for lengthening and shortening said mounting assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
